

Miglas Ali-Clad Awning Windows with full automation using electric power window actuators from Germany

- Excellent thermal performance designed to achieve 5 star energy ratings
- Low maintenance aluminium exterior cladding
- Architectural colour range of powdercoated aluminium to suit project design
- Custom designed sizes and shapes for residential, commercial and community projects
- High quality Truth hinges from the USA for easy operation, security and long trouble free life.
- Truth sash locks for security and eliminating air leakage on manual windows.
- High quality EPDM welded gaskets and seals for high performance air and water sealing ratings
- Sustainable Australian hardwood or optional FSC timber frames and sashes for stability and strength
- Removable paint foil on gaskets to give ease of painting and paint-free gaskets for sealing.
- Optional 230 volt electric power operation using quality German electric winders with maintenance free stainless steel chain
